

# FLOOR PLATE SPACE EFFICIENCY AND COST ANALYSIS

**Efficiency:** The Central & Wolfe Campus’s large floor plates are more space efficient than the smaller floor plates found in most new Class-A projects. This greater efficiency is due in part to the fact that larger floor plates require less core space (e.g., stairs, bathrooms, elevators) than smaller floor plates do. Therefore, the Central & Wolfe Campus’s large floor plates yield more usable square footage (as a percentage of each floor plate) than the much smaller floor plates found in most new projects. This means that **you can place more employees per 1,000 sf of space at the Central & Wolfe Campus than you can at most other new projects, including: The Center @ 700, Santa Clara Gateway, Commonwealth Corporate Center, Campus @ Shoreline and Moffett Place.**

**Cost:** Comparing the space efficiency of the Central & Wolfe Campus to other new projects is critical because it reveals that most other new projects such as **The Center @ 700, Santa Clara Gateway, Campus @ Shoreline and Moffett Place are actually more expensive** on an “asking rent per employee” basis, despite their lower asking rents per square foot.

Notes

Central & Wolfe Campus: Square footage is based on a third level, single building floor plate. The largest contiguous floor plate is 208,110 sf.

The Center @ 700: Employee count and average floor plate size is based on test fit from project brochure.

Moffett Place: Square footage is based on 315,272 sf/building divided by 8 floors. Workstations assumed to be 6x8. Employee count is based on test fits from Moffett Place brochure.

Commonwealth Corporate Center: Square footage is based on 137,500 sf/building divided by 4 floors. Employee count is based on test fits from Commonwealth Corporate Center brochure.

Campus @ Shoreline: Square footage is based on the third floor. Workstations assumed to be 6x8. Employee count is based on test fits from Campus @ Shoreline brochure.

Santa Clara Gateway: Employee count is based on test fits from Santa Clara Gateway brochure.
